Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3652

This application has been reassigned to examiner Charles A. Fox.

Specification

The abstract of the disclosure is objected to because it contains more than 150 words. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 2 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The second switching state is first said to enable lifting and lowering of the forks of a forklift truck. See the passage starting on line 10 starting with " that lifts..." and ending on line 11 with " in a second switching state". The next passage of the claim states that the lifting and lowering of the fork is not enabled while the switch is in the second switching state. Since the specification is not enabling for the second switching state to both enable and disable the lifting and lowering of the forks, it is not possible for the examiner to determine the intended scope of the claim. Claim 2 is also rejected as being dependent upon an unenabled claim. As claim 1 is not able to be examined at this

time, claim 2 is also unable to be examined as its scope indeterminate as well. Therefore claims 1 and 2 have not been treated on the merits at this time.

Response to Amendment

The amendments filed on April 24, 2003 have been entered into the record.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Claim 3 has allowable subject matter, namely the relationship between the operating lever, a switch and a controller, and how they combine to generate a signal for a control valve. The previously cited prior art of Momota does not teach or suggest the combination of features as claimed in independent claims 1 and 3.

Claims 4-9 are dependent upon claim 3 and are in condition for allowance.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Terminal Disclaimer

The terminal disclaimer filed on April 24, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 6,273,669 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
